Tutorial 8: Proposition and Inference

Finn-Lasse Jörgensen, Frederik Wille, Tronje Krabbe

December 11, 2016

Exercise 8.2: CSI Stellingen

- Assumables:
  Gärtner hat im Garten gearbeitet: g_garden
  Butler hat in der Garage gearbeitet: b_garage

- Oberservations:
  Gärtner hat keinen Dreck an seinen Händen: $\neg g\_dirt$
  Butler hat Dreck an seinen Händen: b_dirt

- Rules:
  If the gardener worked in the garden all day, he will have dirt on his hands: $g\_dirt \leftarrow g\_garden$
  If the butler worked in the garage all day, he will have dirt on his hands: $b\_dirt \leftarrow b\_garage$

- Integrity Constraints:
  The gardener has either dirt on his hands or he has no dirt on his hands: $false \leftarrow g\_dirt \wedge \neg g\_dirt$
  The butler has either dirt on his hands or he has no dirt on his hands: $false \leftarrow b\_dirt \wedge \neg b\_dirt$
